RE: Satellite distribution/Affiliate conversion  
DATE: 6/20/19

GAB Radio Network is happy to inform you that effective Sunday, July 7, 2019, we will be assuming the satellite distribution responsibilities for Beyond The Beltway with Bruce DuMont. This will be a very simple and virtually seamless transition for you, as we utilize the same satellite service that the program has used in the past (Westwood One/Cumulus Satellite, XDS platform).

The following technical overview will provide you the simple Westwood One XDS satellite receiver setup necessary:

- Programs distributed on Westwood One (formerly Cumulus Media) satellite carrier (AMC-18) via the X-Digital Systems (XDS) platform;
- Instructions on scheduling programs in the XDS receiver can be located at this link: [http://myxdsreceiver.cmneng.com/aff/Documentation/XDS\\_Pro\\_Scheduler\\_Primer.pdf](http://myxdsreceiver.cmneng.com/aff/Documentation/XDS_Pro_Scheduler_Primer.pdf);
- Programs may be scheduled via Calendar method and no authorization required;
- Log into your WW1 XDS receiver and locate the programs in the XDS "Program List" tab;
- **From the scroll down list, scroll until GAB2 – Beyond The Beltway with Bruce DuMont appears, click that selection;**
- In the program setup window, select the appropriate "live" or delay broadcast field and input the appropriate parameters for both hours;
- Click "commit" button at bottom of page.
